1920’s Scrapbook Assignment

Your assignment is to create a “scrapbook” of images of 1920’s culture. You may create your book in Google Docs, Microsoft Word or PowerPoint, or in a publishing program. Your book should contain images and information from the 1920s. The information must be in your own words. Choose at least two names or concepts from at least four categories below. I have included suggestions below for each category, but you may choose other appropriate terms that fall within each category.

Each page of your scrapbook must have:

- At least one image
- a short description or the importance of each person or concept.
- “Jazz-age slang”. To find a list of jazz-age slang words and their definitions, complete a Google search for “jazz age slang”. Use 1920s slang in your descriptions in your scrapbook. For example, a photo of a flapper could include that “Flappers were young women in the 1920’s who were real dolls or were the cat’s meow.”

Your scrapbook should also contain:

- Two 1920s advertisements
- A cover page

Grading Criteria

- Contains all required elements
  - Images
  - Description or explanation in your own words. Plagiarized information sections will receive a 0 for a score!
  - Jazz-age slang
  - At least two advertisements from the 1920s. These may be actual advertisements that are copied and pasted.
- Creativity and neatness
- Work habits and timely completion
